

NEW SERVICE OPPORTUNITY!

What? Area 61 has established a technical support committee! After several months of discussion, creation of the committee was approved at our recent Area Assembly. We are ready to go!

Why? The committee was created in response to an increasing need for consistent and knowledgeable support of our Audio/Visual needs. This committee will support these needs at Area Assemblies, Area Committee meetings, and meetings of the Area's Standing and District committees. The committee will also be responsible for maintenance, storage, etc. of the Area's A/V equipment.

Who? People with general knowledge of computers and an interest in learning how to hook up all of the equipment needed to support what we see on our screens and hear through our speakers. Also, people with no knowledge but with a desire to get involved in service work outside of their home group. Let's learn together!

Anything Else? Yes! We are also in need of someone to chair this committee, ideally a person with knowledge of and experience with A/V equipment. Familiarity with virtual meeting setups would definitely be a plus.

What do I need to do? Send an email to our Area Chairperson at areachair@aaainri.com, and please include a phone number you can be reached at. We'll get back to you with the details.

Service is a great way to give back and to improve the quality of our recovery!
